Molecular imaging of transcription-related properties of tumor with Gd-DOTA-P-Bz-RGD peptides. The increased demand for new imaging agents has driven pharmaceutical companies to develop peptides or peptidomimetic ligands as molecular probes. P-Bz-RGD peptides bind more avidly to integrin  $\alpha v \beta 3$  than to other integrins and are a promising new class of tumor targeting agents. In this study, we investigated the translational potential of P-Bz-RGD peptides for theranostics, and they can not only target tumor integrin  $\alpha v \beta 3$ , but also actively identify tumor for thermal treatment. When we are talking about the highly elite group of quarterbacks, it's hard not to start talking about Tom Brady, Peyton Manning, Ben Roethlisberger, and Drew Brees. That is to say, the elite quarterback. The stars of the game. On the gridiron. The best of the best of quarterbacks to never get a Super Bowl ring and win the most Super Bowls for any player. Now let's talk about two other groups: the elite quarterbacks who have never won the Super Bowl and the elite quarterbacks who won the Super Bowl more than once. Who are the former elite quarterbacks? I mean, you could make the argument that Brady, Rodgers, and Brees all have the potential to be elite quarterbacks but never have had the level of dominance that they have had in the last five years. Those who are in the later category, though, are very different. I can think of only three quarterbacks who have been elite more than once but never won it all: 1. Joe Namath (3 times): Joe Namath was a quarterback and a Super Bowl MVP in New York in 1969. He's the only quarterback to do that. Namath also threw for 56 touchdowns and nine interceptions. He missed the 1970 season with a hip injury but still led the Jets to an NFL Championship in 1973 (playing in relief of Ken Stabler). 2. Fran Tarkenton (2 times): Fran Tarkenton played quarterback for the Minnesota Vikings in 1963, the Minnesota Vikings in 1968, and the St. Louis Cardinals in 1973 and 1974. Tarkenton has the distinction of being the only quarterback to win the Super Bowl at least twice with two different teams.
